- Become a peer tutor in class

EXPERIENCE

Devaccto IT || Software Engineering   *february2024 - present*

- As a member of the Devaccito IT organization, I deepen my knowledge of software engineering. I am actively involved in the creation of various projects, collaborate closely with my colleagues, and participate in various events. This experience allowed me to sharpen my technical skills, foster teamwork, and broaden my understanding of various aspects of software development. Being part of a dynamic environment not only enhanced my coding abilities but also strengthened my problem-solving skills and adaptability in real-world scenarios.

Pekan IT   *July2024*

- IT Week is an event designed to showcase our projects to parents and visitors. In this event, I contributed by designing a logo that became the visual identity of our project and decorating the stand to create an attractive and professional atmosphere. This effort aims to make the stand we stand out and reflect the quality and dedication we invest in our projects.

Google I/O Extended   *July2024*

- Knowledge sharing events about the web, Machine Learning (ML), Firebase, and other related technologies hosted by experienced developers offer valuable opportunities to dive into the latest techniques, gain first-hand insights, and expand skills through presentations, and discussions. It is also an ideal platform for building a professional network and sharing experiences in the technology field.
